

# Learning Outcome Impact Study

## Park High School

Empowering Students and Elevating CTE Through OSHAcademy

### School Profile

**School:** Park High School  
**Location:** Livingston, Montana  
**Program:** Work-Based Learning Program  
**Coordinator:** Janine Ensign

### Why is this training a model for educators?

- ✓ Integrated OSHAcademy into Work-Based Learning Program
- ✓ Sought training that was affordable, flexible, and industry-relevant
- ✓ Aligned with goals to provide students with real-world skills and certificates

“ It is my goal to equip students with training and certificates that will assist them in their pursuit of gaining more knowledge and skill in a career pathway.

**Janine Ensign** ”

### How did this training lead to a desired student outcome?

- ✓ Students gain knowledge aligned with career interests
- ✓ Certificates add professionalism to student resumes
- ✓ Certificates included on transcripts and scholarship applications
- ✓ HIPAA training meets healthcare employer requirements

## How does this training enhance student resumes and technical skills?

- ✓ Boosts student confidence and readiness
- ✓ Provides tangible evidence of achievement
- ✓ Strengthens alignment with CTE program goals
- ✓ Gains recognition from local business partners

“ Offering industry relevant training not only helps build student confidence and knowledge, but also prepares the student for their future and showcases their accomplishments.

**Janine Ensign**

”

## Why should educators use OSHAcademy training?

- ✓ Affordable and flexible course options
- ✓ Industry-recognized certificates that make students stand out
- ✓ Easily complements existing CTE or work-based programs
- ✓ Adds value without overwhelming school resources
